

What they Say About Us

"I really enjoyed the Summer Program. The rotation system is an excellent opportunity to discover one's interests and to interact in different settings and situations with members of the Firm. I felt I learned more this summer than I did all of my first year of law school and I considered it, overall, a challenging and rewarding experience."

"The Firm gave me a very positive and enthusiastic feel. It definitely seems like the place that I would like to start and develop a career. The ambience is one that encourages both learning and hard work".

"The Firm's lawyers, ambience, and quality of work separate this Program from any other. The Firm's 'open door policy' created an ambience that was very professional on different levels".

"It is full of very professional, talented, intelligent attorneys who work hard and party hard"

"The Program was well organized, and gave us incredible opportunities"

"Good balanced activities. They provide the intern with the opportunity to integrate to the Firm culture".

"The Firm has a culture of welcoming and supporting Summer Associates that is palpable throughout all McV - from Capital Members to support staff".

"Definitely, I learned so much about the practice of law and the advocacy of client interests. I'm very pleased with my decision to apply and participate. Thanks again!"

"This is overall a GREAT program, really. It is a great experience from which any law student would totally benefit from. Also, it is a lot of fun, so I would definitely recommend it".
